This exploded view shows a mechanical assembly consisting of two main sub-assemblies. The upper sub-assembly features a grey L-shaped bracket with a red inner lining, a square plate with two circular holes, a grey sleeve, and a red square block with a central hole. The lower sub-assembly includes a red square block with a central hole, a grey sleeve, and a red square block with a central hole. To the right, there are two long grey bolts with hexagonal heads and two sets of washers and nuts. At the bottom, there are two long grey bolts with hexagonal heads, two red cylindrical components, two grey circular plates, two grey washers, and two grey hexagonal nuts.

- **Get everything in one box.**
- **Save time and cost with every install.**
- **No need to piece together individual components**
- **Includes new hardware for proper torque and a quality repair.**

Choose ATRO High-Temp Parts for durability in extreme conditions.

ATRO High-Temp parts have unmatched heat resistance with our custom poly formula that won't degrade when exposed to chemicals, weather, or the hostile engine environment that breaks down rubber parts.

A high quality, competitively priced market alternative engineered to meet or exceed OE standards, and are chemically resistant to deterioration, while still absorbing and dampening vibration.
